CONNECTED
SECURE
WORLD

CSW was founded with a clear mission to transform technological complexity into simple, secure, and high-value solutions.

Headquartered in Dubai and supported by a robust network of Italian and global engineering partners, CSW stands at the intersection of:

ADVANCED CYBERSECURITY
PROJECT MANAGEMENT
AUTOMATION & AI

Our strength lies in the integration of three core pillars:

ADVANCED CYBERSECURITY

Protect data, infrastructures, and digital ecosystems

STRUCTURED PROJECT MANAGEMENT

Lead and deliver complex international initiatives

AUTOMATION & AI SOLUTIONS

Innovate, optimize, and future-proof operations

Every project reflects technical rigor, international certifications, and a results-driven consulting approach.

Our vision is simple:
A SAFER, SMARTER,
AND MORE CONNECTED WORLD

Where businesses
can grow with confidence.

Our Mission:

To guide companies through digital transformation with solutions that are:

Secure → aligned with international cybersecurity standards

Efficient → supported by structured project methodologies

Innovative → enhanced by automation and artificial intelligence

We believe in a world where digital trust becomes the foundation for growth — where organizations innovate without fear and face the future with confidence.

We don't just provide services — we build relationships of trust. Every project comes with international certifications, global quality standards, and the dedication of a team that cares about your long-term success.

With CSW, innovation is never a risk — it's a strategic advantage.

ADVANCED CYBERSECURITY

Security is not a cost — it is a strategic asset.

Digital security is now the foundation of trust between companies, institutions, and their clients.

Without protection, every innovation becomes vulnerable.

CSW offers a complete ecosystem of certified, scalable, and globally compliant cybersecurity solutions, designed to guide organizations toward continuous protection.

Our Cybersecurity Capabilities:

- › 72-Hour Rapid Digital Risk Assessment

- › Certified report identifying exposures, vulnerabilities, and compromised data

- › Vulnerability Assessment & Penetration Testing (VA/PT)

- › Using OWASP, NIST, and manual simulations to anticipate threats before they emerge

- › Integrated Perimeter Protection

- › Physical + virtual security with continuous monitoring and assistance contracts

- › Employee Cyber Awareness & Anti-Phishing Training

- › Custom programs that transform teams into the first line of defense

All services ensure compliance with GDPR (EU), NIS2 (ENISA), NIST, ISO/IEC 27001 and other global standards.

In today's world, protection is not optional
— it's your biggest competitive edge.

Every day, billions of data points travel across digital infrastructures.
And with them come risks: ransomware, data leaks, phishing,
intrusions, and attacks that can stop entire companies.

CSW provides a complete suite of certified, ready-to-deploy
cybersecurity services designed to protect you now and strengthen
your resilience for the future.

Our team holds top international certifications, including:
CIPP/E • ISO/IEC 27001 • ISO/IEC 27037 • ISO/IEC 27042 CISM • CEH • eWPTX • eCPPTv2 • ISO 22301 • ISO 20000

With CSW, you gain:

- Proactive threat protection
- Full compliance (GDPR, NIS2, NIST)
- Lower economic and reputational risks
- Strong business continuity
- A long-term competitive advantage

PROJECT MANAGEMENT & SYSTEMS INTEGRATION

Complexity made simple. Strategy made operational.

The success of a project is defined by its ability to align people, processes, and technology into one synchronized flow.

CSW operates as a global command center, coordinating multidisciplinary teams and guiding initiatives from concept to completion.

The difference between chaos
and success is orchestrated.

CSW acts as your central command center, aligning all components
into a secure, structured, and high-performing system.

With CSW, projects become resilient ecosystems, engineered to
deliver lasting value.

Our Methodology:

› STRATEGIC PLANNING & ROADMAPS

Clear milestones, KPIs, and unified stakeholder visibility.

› TEAM & RESOURCE COORDINATION

Aligning diverse competencies toward a shared objective.

› CROSS-SERVICE INTEGRATION

Merging Cybersecurity + Automation for solutions that are secure by design.

› INTEGRATED GOVERNANCE & COMPLIANCE

Ensuring alignment with ISO/IEC, GDPR, NIS2, NIST and international frameworks.
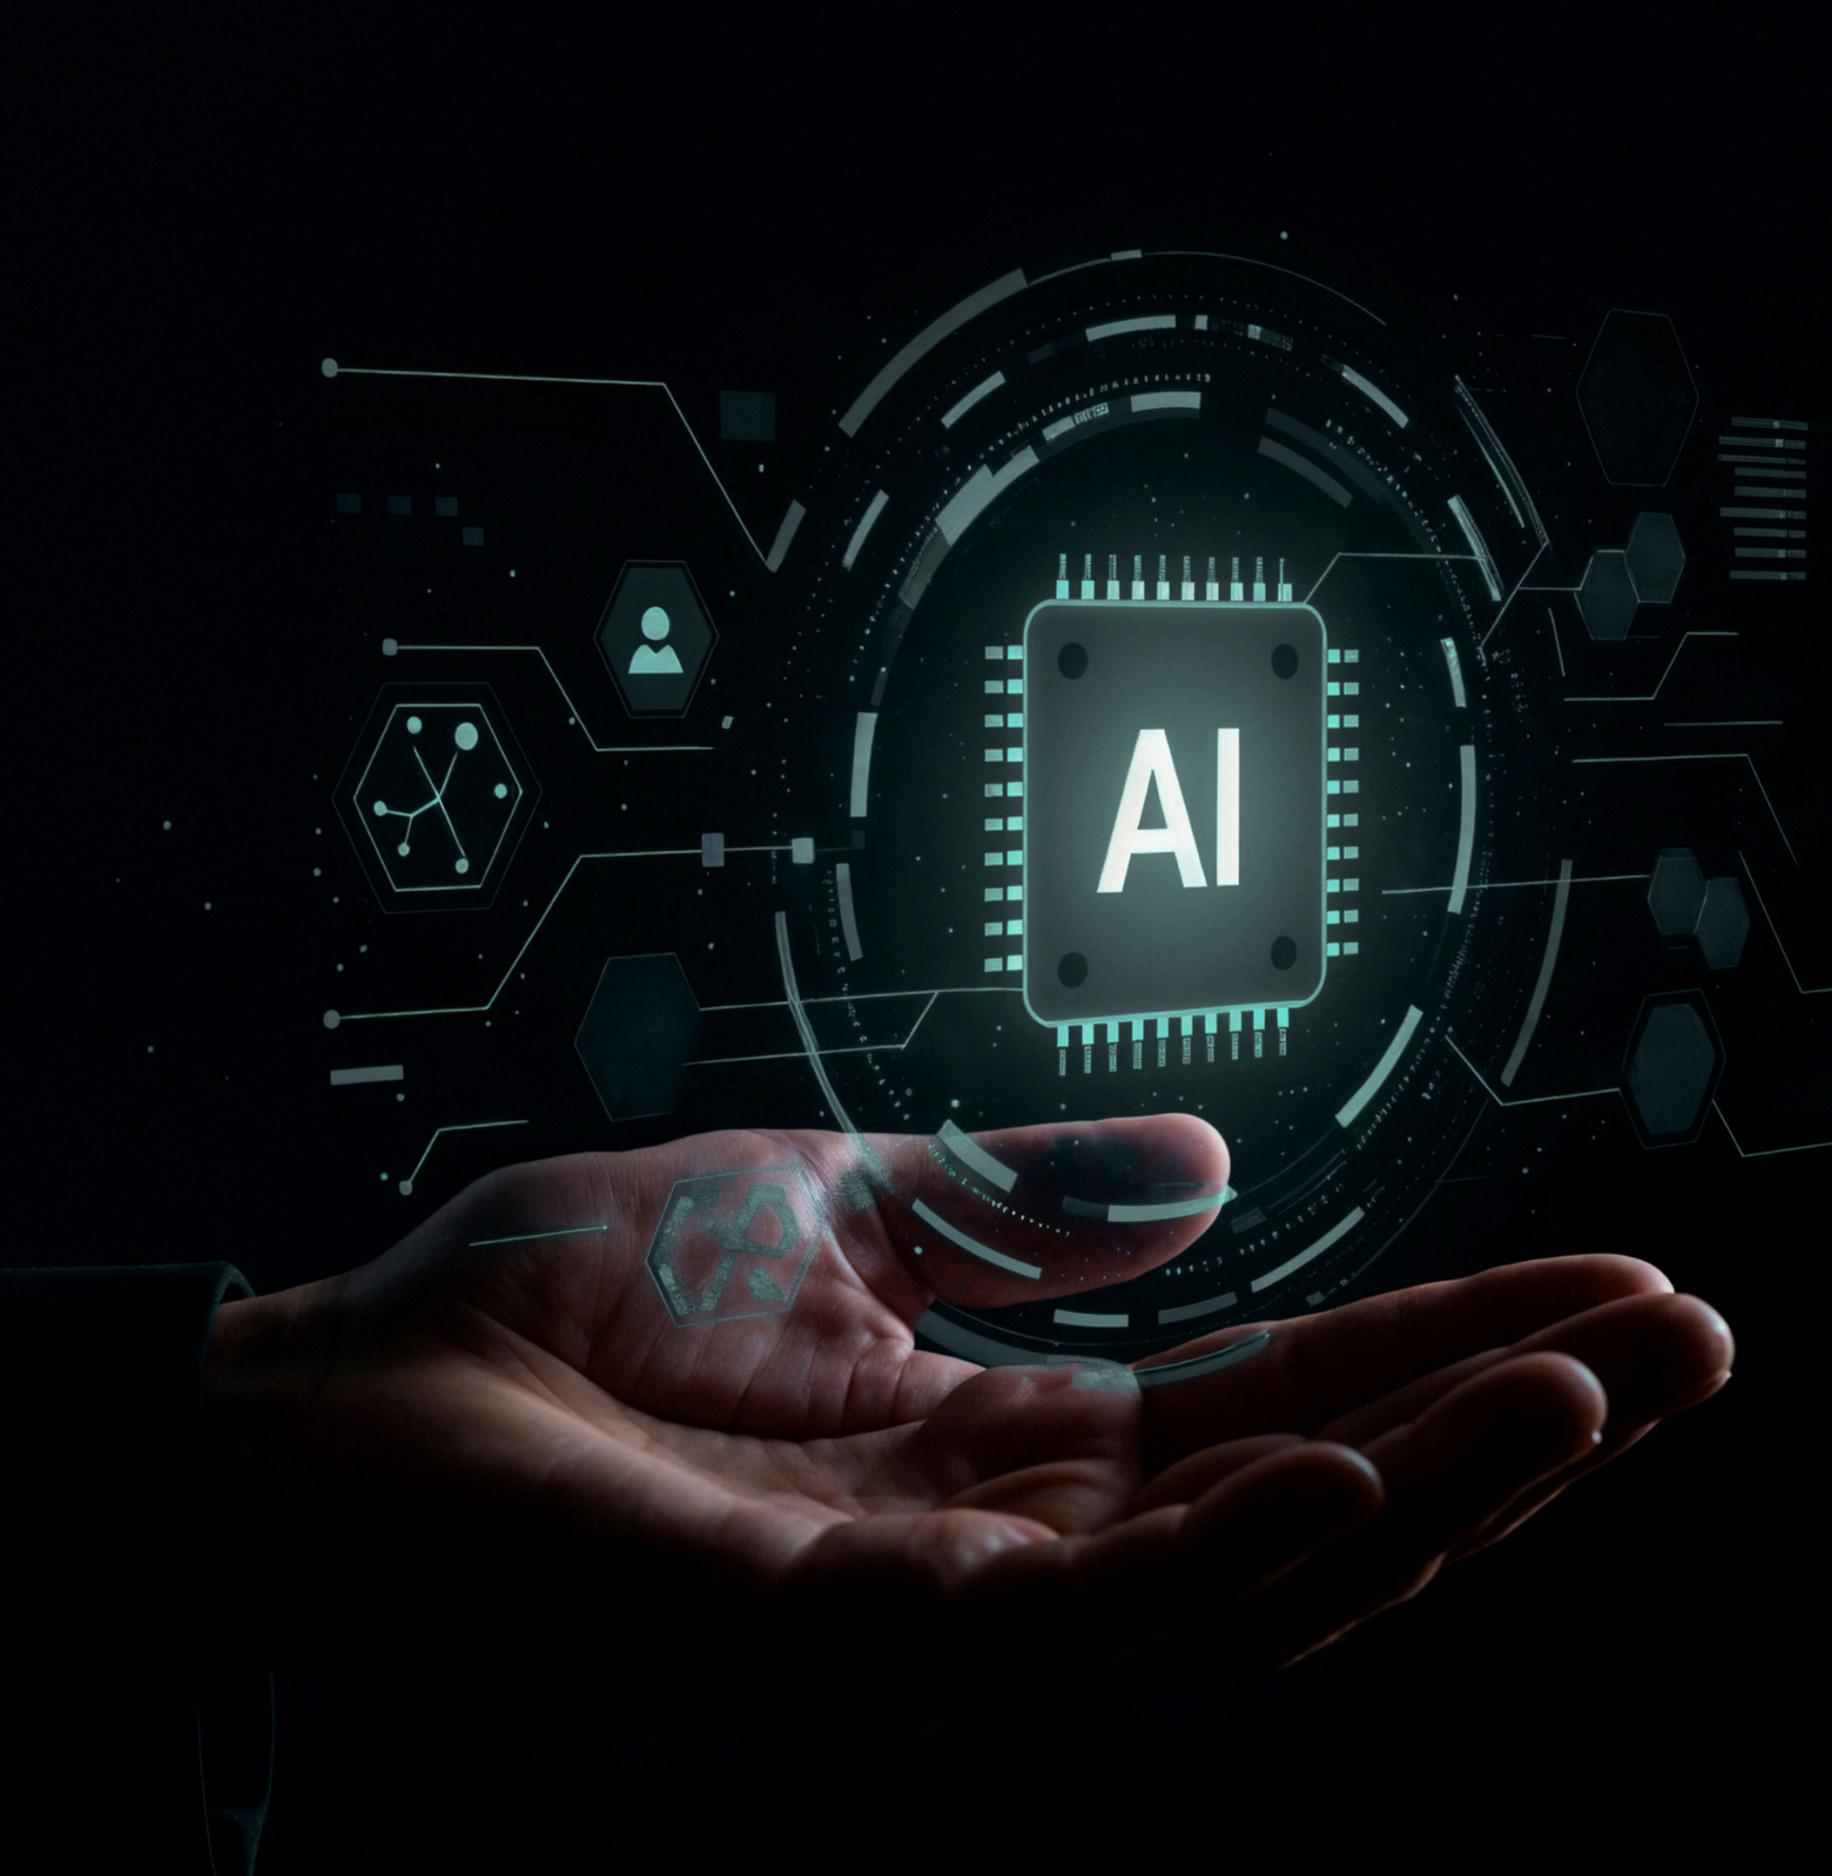

› OPERATIONAL & ACCOUNTING SETUP

Enterprise Resource Planning (ERP) accounting system. Import and posting expenses into ERP, chart of accounts structuring, issuance of opening financial reports.

Client Benefits:

- › Reduced risks

- › Increased efficiency

- › Seamless communication across teams

- › Stronger security foundations

- › Scalable long-term solutions

At CSW, we don't just manage projects — we create ecosystems where innovation and security work together.

AUTOMATION & AI SOLUTIONS

IT Consultancy & Intelligent Systems

Innovation that simplifies.
Intelligence that empowers.

CSW designs and deploys Automation and AI
solutions that transform complexity into
efficiency and precision.

Our Expertise Include:

› Industrial & Civil Automation

› Optimize energy, eliminate errors, and reduce operational costs

› AI Integration into Business Processes

› Predictive maintenance, smart analytics, and data-driven decision support

› Smart Building & IoT Solutions

› Connected, secure, and sustainable infrastructures

› Tailor-Made Hardware & Software

› From prototype development to global-scale deployment

Automation and AI are no longer futuristic concepts — they are essential tools for modern competitiveness.

But implementing them without proper engineering can create inefficiencies and risks.

At CSW, we transform automation and AI into safe, reliable, and measurable value.

Client Benefits:

- Lower costs
- Faster operations
- Better decision-making

- Systems built for future scalability
- Innovation enhanced with security by design

With CSW, AI and automation stop being "technologies" - they become engines of growth.

Every solution is born from secure engineering practices, guided by certified project management standards.

The result: faster processes, stronger companies, and more satisfied clients.

Certifications that speak the universal language of global reliability.

Behind every CSW project is a foundation of internationally recognized standards and professional expertise.

That's why CSW operates with full alignment to global best practices.

Our Credentials:

❯ COMPLIANCE FRAMEWORKS:

GDPR, NIS2, NIST, ISO 27001 (Information Security), ISO 22301 (Business Continuity), ISO 20000 (IT Service Management), ISO/IEC 27037 (Evidence Acquisition) and ISO/IEC 27042 (Evidence Analysis)

❯ PROFESSIONAL CERTIFICATIONS:

CIPP/E, CISM, CEH, eWPTX, eCPPTv2, MAS Security, EU 2016/679 GDPR Data Protection Officer (DPO), Cyber Law Consulting, GDPR DPO, Innovation Manager UNI 11814

❯ TECHNOLOGY PARTNERSHIPS:

Microsoft, Oracle, and global Cybersecurity vendors

❯ INTERNATIONAL NETWORKS:

Leading associations in Cybersecurity, Digital and Mobile Forensics, and engineering

These are not titles — they are guarantees of excellence, recognized across global markets.

Our services comply with:

> GDPR • NIS2 • NIST • ISO/IEC 27001 • ISO 22301 • ISO 20000 • ISO/IEC 27037 • ISO/IEC 27042

Our team includes certified experts in:

> CIPP/E • CISM • CEH • eWPTX • eCPPT • MAS Security • GDPR DPO • UNI 11814 Innovation Manager • Cyber Law Consulting

With CSW, you gain access to an integrated ecosystem of services that combine:
Protection | Management | Innovation

Our promise is simple: Certified engineering excellence with global vision and world-class partners.
